WHAT I DELIVER

Senior software engineer specializing in production-grade frontend systems, full-stack applications, and AI-integrated products. 4+ years delivering for international clients — consumer platforms, B2B SaaS, enterprise ERP, and educational technology. I work async-first across timezones, communicate clearly with non-technical stakeholders, and ship systems that keep working two years after handoff.

SERVICES

Frontend Architecture & Development React · Next.js · TypeScript · scalable component systems · performance optimization	Full Stack Development Node.js · PostgreSQL · Supabase · REST APIs · end-to-end feature delivery
AI Product Engineering LLM integration · prompt engineering · Claude · OpenAI API · AI workflow automation	Technical Leadership & Consulting Architecture review · code audit · team bridging · cross-timezone delivery

SELECTED PROJECTS

Consumer Savings Platform — Israel Three-portal digital coupon system — consumer app, provider dashboard, B2B multi-tenant. Resolved critical staging/production divergence via intermediate environment. Zero live user impact. Leading AI expansion with Anthropic + Gemini integrations. 156k consumers · 5.5M+ coupon redemptions delivered	Technical Lead · React · Node.js · PostgreSQL · AI
AI Proposal Intelligence — California B2B SaaS for PEOs and brokers — AI proposal generation from real email inboxes. Pipeline: email parsing → document extraction → structured output. Client expanded scope to second system based on delivery quality.	Full Stack Developer · React · Node.js · Supabase · AI
University Learning Platform — Israel LMS exam system with real-time sync, server-authoritative timers, concurrent submission handling. Sustained 3,000 concurrent users under peak academic load with zero lost submissions. 3,000 concurrent users · zero lost submissions	Frontend Developer · React · TypeScript

MORE PROJECTS

Employee Management System — India

Frontend Developer · React

Backend-driven dynamic order rendering — zero hardcoded display logic. Delivered in 2 months with zero rework requests after first client review.

Jewelry ERP + Distributor Catalogue — India

Frontend Developer · React

Multi-step design wizard (6–9 industry-specific steps) for jewelry manufacturing ERP. Paired with distributor-facing catalogue. Two systems delivered for one client, both live in production.

TECHNICAL SKILLS

FRONTEND

React · Next.js · TypeScript · JavaScript ·
Redux · Tailwind CSS · Framer Motion

BACKEND & DATABASE

Node.js · Express.js · PostgreSQL ·
MongoDB · Supabase · REST APIs

AI & AUTOMATION

Anthropic Claude · OpenAI API · LLM
Integration · Claude Code · Cursor ·
GitHub Copilot · MCP

ARCHITECTURE

Frontend Architecture · Multi-tenant
Systems · Performance Optimization ·
System Design

TOOLING

Git · Docker · Vercel · Vite · Postman ·
Figma · CI/CD

SOFT SKILLS

Async communication · Cross-timezone
delivery · Client management · Technical
documentation

WORK HISTORY

Senior Software Engineer → Technical Lead

Sep 2022 — Present

Tuvoc Technologies Pvt Ltd · Ahmedabad, India · 4+ years

Grew from trainee to technical lead within one company. 9 production systems shipped across three countries for international clients.

EDUCATION

Bachelor of Technology — Computer Science

2022 — 2025

Madhyanchal Professional University

Diploma — Computer Engineering
