3.5+ yrs IN PRODUCTION	9 systems SHIPPED	5.5M+ REDEMPTIONS DELIVERED	3 countries ISRAEL · CALIFORNIA · INDIA
----------------------------------	-----------------------------	---------------------------------------	---

PROFILE

Senior Software Engineer with 3.5+ years at one company — grown from trainee to technical lead. I build frontend systems and full-stack architectures that stay understandable as products grow more complex. My work spans consumer platforms, AI-powered SaaS, enterprise ERP, and university-grade LMS — shipped for distributed teams across Israel, California, and India. I design for the engineer who inherits the code two years later.

EXPERIENCE

Senior Software Engineer Nov 2025 — Present

Tuvoc Technologies Pvt Ltd · Ahmedabad, India

- Leading full-stack engineering across distributed international teams — architecting decisions other engineers build on.
- Designed and shipped B2B multi-tenant coupon platform with AI integrations (Anthropic Claude + Google Gemini) for Israeli market.
- Bridge between Israeli PM and development sub-teams — owns technical decisions end-to-end as player-coach Technical Lead.
- Built AI proposal generation pipeline for California-based B2B SaaS: email parsing → document extraction → structured output.

Software Engineer Dec 2022 — Oct 2025

Tuvoc Technologies Pvt Ltd · Ahmedabad, India

- Designed the pre-production environment that bridged a silent staging/production divergence — zero impact on 156k live consumers and 5.5M+ coupon redemptions during live deployment.
- Built university LMS exam system handling 3,000 concurrent users with real-time sync, server-authoritative timers, and concurrent submission handling.
- Delivered backend-driven employee management system in 2 months — zero rework requests after first client review.
- Shipped jewelry ERP design module (multi-step stepper workflow, 6–9 industry-specific steps) and distributor catalogue for Indian manufacturing client.

Trainee Software Engineer Sep 2022 — Nov 2022

Tuvoc Technologies Pvt Ltd · Ahmedabad, India

- Three months of hands-on React training with senior engineers before moving to live production work.

EDUCATION

Bachelor of Technology — Computer Science 2022 — 2025

Madhyanchal Professional University

Diploma — Computer Engineering 2019 — 2022

Noble Group of Institutions, Junagadh

TECHNICAL SKILLS

CORE FRONTEND

React · Next.js · TypeScript · JavaScript ·
Redux · React Hooks · Tailwind CSS ·
Framer Motion

BACKEND & SYSTEMS

Node.js · Express.js · PostgreSQL ·
MongoDB · Supabase · REST APIs ·
GraphQL

AI & ENGINEERING

Anthropic Claude · OpenAI API · Prompt
Engineering · Claude Code · Cursor ·
GitHub Copilot · MCP

ARCHITECTURE

Frontend Architecture · System Design ·
Multi-tenant Systems · State
Management · Component Design ·
Performance Optimization

TOOLING & DELIVERY

Git · GitHub · Docker · Vercel · Vite ·
Postman · Figma · CI/CD

PRACTICES

Cross-timezone async collaboration ·
Technical leadership · Code review ·
Production debugging · AI-assisted
development

SELECTED SYSTEMS

Consumer Savings Platform — Israel

Technical Lead

- Three-portal system (consumer app, provider dashboard, B2B multi-tenant) serving 156k consumers with 5.5M+ coupon redemptions.
- Resolved staging/production divergence via intermediate environment — zero live user impact on high-stakes deployment.
- Leading B2B expansion with multi-tenant architecture and dual AI provider integration.

AI Proposal Intelligence Platform — California

Full Stack Developer

- B2B SaaS for PEOs and brokers — CRM, underwriting, commissions, and compliance unified in one AI-powered workflow.
- Built AI pipeline: email inbox parsing → document extraction → structured proposal generation.

University Learning Platform — Israel

Frontend Developer

- LMS exam system sustaining 3,000 concurrent users — real-time sync, server-authoritative timers, zero lost submissions under peak academic load.

Jewelry ERP + Distributor Catalogue — India

Frontend Developer

- Multi-step design wizard (6–9 industry-specific steps) for jewelry manufacturing ERP. Paired with distributor-facing catalogue site. First production delivery.

ADDITIONAL

Recognition: Outstanding Commitment Award — Tuvoc Technologies (publicly acknowledged by client CEO and company leadership for 4:30 AM production deployment under critical conditions).

Languages: English (Professional) · Hindi (Native) · Gujarati (Native)

Portfolio: haritrudani.com — live production portfolio with case studies, engineering principles, and production notes.
